**13) What did you especially like about this course?**

Response Text	Frequency	Response Percent
-	1	5.88%
I enjoyed the homework format	1	5.88%
I like how the lecturer explain everything with details.	1	5.88%
I really enjoyed the class lecture being in person during a summer session.	1	5.88%
I really like how detail of the lecture that professor has been provided and I can feel that he taught through his whole heart to make sure that everyone will get it.	1	5.88%
Inquizzitive was very cool but the professor always had great lectures that helped guide the homework and readings. Overall, would recommend	1	5.88%
Learning how the content is being used daily in our lives.	1	5.88%
R.B. is an excellent and enthusiastic character, and i found his lecture entertaining and informative.	1	5.88%
The concepts	1	5.88%
The enthusiasm and liveliness of Robert's presentations. It had such a positive quality and level of engagement, wherein as a result, this subject now has a much greater appeal to my fascination/intrigue, than it ever had beforehand.	1	5.88%
The explanation are all clear and easier to understand	1	5.88%
the homework	1	5.88%
The instructor, Robert Baluja, made it worthwhile. He gave detailed explanations and ensured we understood the topic before moving to the next one. He treats us all with respect, sympathizes with students, and helps them during office hours with any concerns.	1	5.88%
the slide and the content was clear.	1	5.88%
The way the professor teaches and explains everything in a easy way.	1	5.88%
What I really like about this course is the Inquisitive Feature, it really helps me with learning the topics in the course. Initially, I used to think the Inquisitive assignments are just quiz games assignment, but the first time I played it, it was more than a quiz game or a digital book, it is a fun transformative learning method. For a question you do not understand, you can set a low point, and a question you are confident that you understand, you can set a high point.	1	5.88%

14) What suggestions would you make to improve this course?

Response Text	Frequency	Response Percent
-	1	5.88%
I would change nothing class went smoothly, i learned alot.	1	5.88%
It will be perfect to show some practical video along with the graph.	1	5.88%
Maybe could give more examples, especially when it comes to the math calculation. It would be easier to understand rather just explain the concept of the formula	1	5.88%
More examples to better understand the material	1	5.88%
more extra credit	1	5.88%
N/a	1	5.88%
No suggestions come to my mind. Very good with everything across the board!	1	5.88%

**14) What suggestions would you make to improve this course (continued).**

Response Text	Frequency	Response Percent
Offer tutoring over the summer for this course	1	5.88%
Probably my only two suggestions are for Mr. Robert to get better markers so that I can see the board clearly regardless of my table and my distance from the board, and for another, I think this course should be given a better classroom, I kind of didn't like the seating arrangements, and the tables do not have chargers in them, and it can be pretty difficult to learn on such arrangement	1	5.88%
Shorten course materials or extend class time.	1	5.88%
Strangle whoever wrote the quizzlet homework questions. (Not really)	1	5.88%
study guides related to our exams.	1	5.88%
the class was a bit fast.	1	5.88%
The course is perfect and I don't think it needs any improvement	1	5.88%
The only thing I would like to suggest is that professor would go slower for each point or repeat the important stuff for students to notice. However, I clearly do understand that professor taught fast for students because of the summer class.	1	5.88%

I enjoyed the class, thank you!	1	5.88%
I enjoyed the opportunity to get to work on the homework's, unlimited tries to work on my skills.	1	5.88%
I felt that this class was better in person than it was online. This was a huge difference.	1	5.88%
I like this class.	1	5.88%
I would like to thank Robert for his enthusiasm and clear passion for the subject of economics. It genuinely made this class much more enjoyable than I otherwise would have expected going into it. As a result, this subject is no longer a stale, uninteresting one for me.	1	5.88%
interactive class with awesome use of the interactive homework and reading.	1	5.88%
Mr. Robert, you've been an excellent and amazing economics teacher. Your unique teaching style made the subject more understandable and encouraging for me to learn. The idea of inquisitive features greatly aided my learning. Unlike my previous experience in Indonesia, where we focused on theoretical and exclusive topics in economics, this course has been broader and more conceptual, widening the answers & my understanding of Basic Economic Issues. Thank you, Mr. Robert, for a fun summer course.	1	5.88%

R.B. is one of those rare teachers with a passion for both the material and the discussion of it. He handled small things like off topic questions quickly professionally and respectfully, usually managing a satisfactory answer at the same time without really ever letting the class discussion get behind schedule, which is another good knack for a teacher.	1	5.88%
Such a good class enjoyed learning about the content being taught.	1	5.88%
Thank you for teaching this course, and I wish you success and prosperity.	1	5.88%
Thank you Prof. Baluja for what you've taught me	1	5.88%
